WARNING: to ensure the best quality of black color printing, please create as follows: C40 M40 Y40 K100

> SCALES & RESOLUTION

▪ **Photoshop:** in scale 1 so files at **100%**
= **maximum resolution 100 dpi** for an optimal quality (minimum: 50 dpi, for the very big size files)*,

▪ **Illustrator:** in scale 1 or 1/10th, for the files which pass the maximum working zone

▪ **PDF:** in the scale **100%** or at 1/10th

*In digital printing BIG SIZE the resolution 100dpi scale 1 is an excellent resolution for a printing in high quality

> BLEEDS & CUTTING LINES
